ASX ANNOUNCEMENT

Full Year Results Guidance

Altura Mining Limited (ASX: AJM) advises that the net loss for the full year ended 30 June 2013 is likely to be in the range of \$0.8 million to \$1.2 million. This compares with the Company's result for the 12 months ended 30 June 2012 of a loss of \$1.8 million.

The reduced loss in the current year is mainly due to a favourable foreign exchange movement, the first time recognition of the equity accounted result from Delta Coal and reductions in administration expenditure partially offset by lower revenues from the Mine Services segment during the year.

These results are subject to audit review. The Company plans to release its annual accounts on Thursday 12th September 2013.
