## ASX ANNOUNCEMENT

### FULL YEAR RESULTS GUIDANCE

**Altura Mining Limited (ASX: AJM) ("Altura" or the "Company")** advises that net loss for the year ended 30 June 2015 is likely to be in the range of \$29 million to \$30 million.

This follows the previously reported loss of \$27.5 million for the half year ended 31 December 2014 (see ASX release on 12 March 2015). This also compares with the Company's result for the 12 months ended 30 June 2014 of a loss of \$7.0 million.

The increased loss in the current year is principally due to operating losses on the Mt Webber iron ore joint venture and the Delta coal mine, loss on the sale of Mt Webber, impairment of Altura's investment in Delta and write-off of goodwill for the Asiadrill and Velseis companies.

These results are subject to audit review.
