

ASX ANNOUNCEMENT | 29 March 2019

FURTHER UPDATE – TROPICAL CYCLONE VERONICA

Altura Mining Limited (ASX: AJM) (“Altura” or the “Company”) is pleased to provide this further update following the passage of Tropical Cyclone Veronica and its subsequent impact on operations at the Altura Lithium Mine in the Pilbara region of Western Australia.

Following the clearing of the main weather system, on-site staff performed an extensive inspection of the mining areas and processing facilities and identified no damage.

Operations resumed on Tuesday 26 March 2019 and was managed by the on-site team whilst additional staff members were mobilised back to the site.

Altura is now awaiting the return to Port Hedland of the vessel “TS Delta” with the cargo already assembled at the indoor storage facility and ready for loading.

About Altura Mining Limited (ASX: AJM)

Altura is a key player in the global lithium market and is leveraging increasing demand for raw materials for manufacturing lithium ion batteries for electric vehicles and static storage uses. Altura owns and operates the world-class Altura Lithium Project at Pilgangoora in WA's Pilbara, which has a production capacity of 220,000tpa of quality spodumene concentrate. The Company has completed a Definitive Feasibility Study on a potential Stage 2 expansion, with a Final Investment Decision due following a review of the Stage 1 operations and ramp-up to nameplate production.
